Beaumont Primary School Overview– Mathematics

Vision Statement *- The basic skills of mathematics are vital for the life opportunities of our pupils. Our aim is for all of our pupils to think mathematically, enabling them to reason, solve problems and assess risk in a range of contexts. At Beaumont Primary School, our Mathematics Mastery curriculum has been developed to ensure every child can achieve excellence in mathematics. Children can experience a sense of awe and wonder as they solve a problem for the first time, discover different solutions and make links between different areas of mathematics. It provides pupils with a deep understanding of the subject through a concrete, pictorial and abstract approach. This ensures that all of our pupils can fully access and understand what they are learning.*
